

A BHAVISHYA

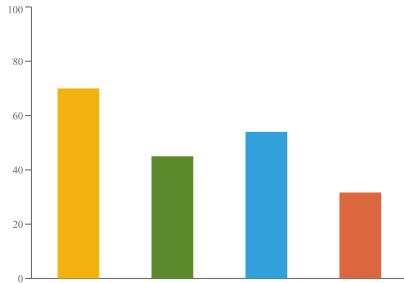

Computer Science Engineering (CSE)

Jul 26, 2024

Overview

The interview with A Bhavishya covered a variety of technical skills including Java, HTML, Cyber Security, and AWS. The user demonstrated a good understanding of Java concepts such as exceptions, constructor chaining, order of precedence, and class design. They also showcased knowledge of HTML concepts such as alternative text for images, cell padding vs. cell spacing, and adding captions to images. In terms of Cyber Security, the user mentioned best practices for securing web applications and the significance of cybersecurity in today's digital landscape. Additionally, they discussed measures to safeguard sensitive information on mobile devices and the benefits of multi-factor authentication.

Skill Wise Metrics

45.88%

Total Percentage

- AWS : 70.00 %
- Cyber Security : 45.00 %
- HTML : 54.00 %
- Java : 31.67 %

Strengths

- Strong understanding of Java concepts such as exceptions, constructor chaining, and class design
- Knowledgeable about HTML concepts including alternative text for images, cell padding vs. cell spacing, and adding captions to images
- Demonstrated understanding of Cyber Security best practices and the importance of cybersecurity in the digital landscape
- Awareness of measures to safeguard sensitive information on mobile devices and the benefits of multi-factor authentication

Limitations

- Need to improve clarity and coherence in explanations
- Could work on articulating responses more effectively
- Lack of in-depth technical details in certain responses
